DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of group III on 4/19/2004 is acknowledged. The traversal is on the ground(s) that all the claims should be examined-. This is not found persuasive because the invention of group III-VI are directed to different species. Invention of group I-II are directed to methods which can use either group III, IV, V or VI. Said inventions of Group III-VI can also be used for different processes other than the one of group I-II such as for example PCR assays. .

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 33, 34, 40, 43, 44, 52, 53-59, are rejected under 35 U.S.C. 102(b) as being anticipated by Manoharan et al. (Bioorganic & medicinal Chemistry Letters (!993), 3(12) pp. 2765-70, abstract only)

Manoharan discloses the synthesis of a 2' –hexyl thiotrityl adenosine phosphoramidite (formula I) and its incorporation into oligonucleotides phosphodiester and phosphorothioates.

Art Unit: 1637

4. Claims 35-39, 41, 42, 45-51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
